

RE:formation

When we started Building2Serve, we imagined what we could do with our new spaces. Now it is time to take those ideas and put them into action. With the Council's assistance and blessing, it is time to decide on a few projects we can start immediately after construction is complete. We all know that being the church inside these walls is one thing. However, we are called to be the church in our community and world as well.

What are your ideas?

+What is the project? What group does it target? _____

+Is there any other group working to meet this need? Is there any other group in our church or the community working to meet this need? We do not want to duplicate efforts, but could possibly work with others. _____

+What resources are needed? Which space in the church? Money? People? _____

+How often do you imagine we would do this? Is this a one-time event? Is this a weekly, monthly, or quarterly event? _____

+Is there any other information to help us get started? Do we need to contact someone or an organization before starting? If so, whom? _____

All ideas will be considered. Some will be chosen to begin with. Others may be implemented in the future.

Return this form to Donna Summerville or the box outside of her office. Use the back of this form to add any additional information you think would help in our deliberations and decision-making process.
